INTRODUCTION

We would like to express our gratitude to all Dogo Argentino investors and we express our gratitude for the assistance from those who have contributed by contributing both thoughts and materials. The author really hopes that this white paper can explain about this project in the future. In fact, we hope that this white paper is easily understood by readers. For us as authors, we feel that there are still many shortcomings in the preparation of this white paper due to our limited knowledge and experience. For that we really expect constructive criticism and suggestions from readers for the perfection of this white paper.

ARGENT

Launched in February 2022, the Dogo Argentino
Token was born from an idea to create a
decentralized token and anyone can buy, sell and
transfer to other parties easily. Its mission is to
create an exchange application that is very easy to
understand and introduce crypto to ordinary
people, a crypto token that is not widely known by
some people, therefore the Dogo Argentino Token
has cheaper gas costs and has faster block speeds
because built on the Binance Smart Chain. One of our
goals is to bring the Dogo Argentino Token to the moon.

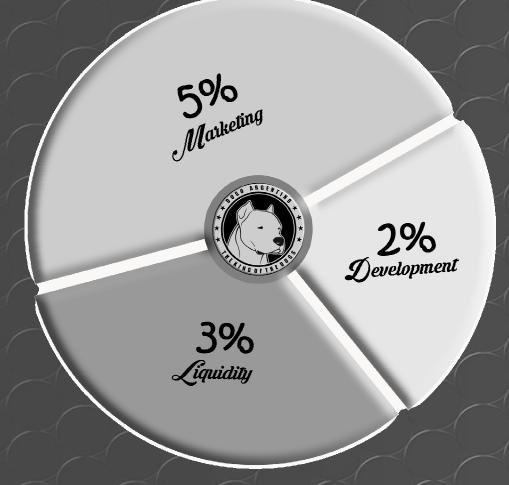

PROJECT

We have a project to make an exchange application that is easy for everyone to understand, from this application we can earn income in the form of transaction fees which we will later use for operational costs for promotion to well-known influencers and we will use it to pay a worker who works together us to help build the Dogo Argentino Token community so that it will be more advanced in the future.

TOKENOMIC

The tokenomic description above is 5% for marketing fees, 2% for development, and 3% is automatically added to the liquidity pool. and we have a supply of 1 billion dogo argentino tokens with the name being **Dogo Argentino**, with symbols DOGO and Decimals 18 on the Binance Smart Chain network
